## High School Retreat Program

The International School offers an annual retreat for its high school students in order to build community and realize its mission of providing students with a unique, globally focused education. The academic content of the retreat follows a four-year cycle of geographic and cultural regions including Africa, Latin America, Asia and the Middle East. This year's retreat is devoted to the culture and society of Asia. The retreat's objectives are for the students to:

- Understand a few of the most significant forms of Asian cultural expression.
- Understand a few of the most significant challenges facing different Asian societies.
- Understand the value of the IS community and its contribution to their overall success at the school for the coming year.
